

**After leaving St. Catherine's**, I attended Hillgrove High School, where I participated in varsity swimming all 4 years, and I qualified for both County and state swim meets. I am happy to report that I am a member of National Honor Society, Spanish honor society, Beta club, and serve as president of science national honor society and chemistry club. Other than those things, I've been busy playing piano and programming a light-following robot for my Senior Project. Currently I am ranked 3<sup>rd</sup> in my class of around 560 in GPA, so I was accepted to Georgia Tech and will attend next year to major in either computer science or engineering. Lego robotics and Science Olympiad at Saint Catherine of Siena Catholic School, were definitely a good start for me.

*Casey Boland / Class Of 2013*

“LEGO ROBOTICS AND SCIENCE OLYMPIAD AT SAINT CATHERINE OF SIENA CATHOLIC SCHOOL, WERE DEFINITELY A GOOD START FOR ME.”
